Biography

Dr. Jae-Woong Jeong is an Associate Professor of Electrical Engineering at Korea Advanced Institute of Science and Technology (KAIST). He received his PhD degree in electrical engineering from Stanford University in 2012. Before joining KAIST, he was an Assistant Professor of Electrical, Computer & Energy Engineering at University of Colorado, Boulder from 2015 to 2017. Dr. Jeong's research focus is in soft bio-integrated electronics and systems for advanced healthcare, human-machine interfaces, and brain research. His research on wireless neurotechnology has been acknowledged among the Top 100 Achievements in National R&D Projects in 2023. He has also been recognized with KAIST Technology Innovation Award, Hyunwoo KAIST Academic Award, and S-OIL Young Scientist Award by the Korean Academy of Science and Technology, among others.
